

The Central Bohemian Innovation Centre of the Czech Republic is interested in the topic of the **low-carbon economy**.

The Central Bohemian Innovation Centre of the Czech Republic is non-profit, non-governmental organization. Our founders are the Central Bohemian Region, the Institute of Physics of the Czech Academy of Science, the Astronomical Institute of the Czech Academy of Science, the Research Institute of Geodesy, Topography and Cartography and Czech Technical University in Prague.

We support research, development, and innovation in the Central Bohemian Region, build partnerships and establish new collaboration between businesses and the academic sector and contribute to the growth and development of small- and medium-sized enterprises and enhance the competitiveness of the Central Bohemian Region within both Czech and global economy. In the field of training and education, we focus on working with young talented students of technical and natural sciences. At the same time, we are responsible for implementing the Research and Innovation Strategy for Smart Specialisation in the Central Bohemian Region of the Czech Republic.
